# Community Programs & Services

## HIV Services

Tarzana Treatment Centers provides HIV/AIDS care and treatment services for both HIV infected and HIV affected clients with vital health education, nutritional consulting, housing and treatment strategies for an improved and extended quality of life. Our goal is to help our clients get back to living the fullest life they can. We address the HIV treatment attitudes and the behaviors surrounding HIV/AIDS which profoundly impact the homeless, drug users, and recovering teens and adults, as well as the needs of the community at large.

## Vocational/Life Skills Counseling

Individual and group classes are available to assist with overcoming barriers to employment, volunteering, or returning to school.

## Housing Program

Tarzana Treatment Centers offers housing, case management and transitional housing to homeless males, females, and transgender women. Our housing is high tolerance and operated by qualified staff working closely with people in various stages of change to overcome physical, mental, and emotional barriers to live quality productive lives.

## HIV/AIDS Education

Tarzana Treatment Centers' HIV/AIDS Education and Prevention Services provide comprehensive workshops and other educational services. A mobile HIV Antibody Testing team and a harm-reduction program augment HIV Education and Prevention Services.

## Community Access Programs

Tarzana Treatment Centers' Community Health Coverage Program assists children and families by enrolling them into low or no cost health coverage programs and helping them utilize and retain their benefits. Project HOPE, which is funded through the Social Security Administration, targets and provides benefits assistance services (SSI/SSDI) to homeless individuals with one or more disabling conditions. The goal of the Program is for these individuals to receive their benefits as early as possible to minimize their risks for recidivism, homelessness, and deteriorating health. The Community Challenge Grant Program provides teen pregnancy prevention services.

Partially funded by the County of Los Angeles, Department of Health Services, Office of AIDS Programs and Policy.
